Elvin Manuel Mendez Espinosa

Software Developer | React.ts | Node.js | .Net Developer | Full Stack Developer

Ensanche Ozama, Santo Domingo, República Dominicana

Extracto

I am a passionate Software Developer with knowledge in both frontend and backend development. I enjoy creating efficient and user-friendly applications, always focusing on clean code and problem-solving. I have experience working with databases, API integration, and modern technologies such as React, JavaScript, TypeScript, Node.js, Python, and .NET. I also use version control tools like Git and GitHub to manage and collaborate on projects. Additionally, I am familiar with Scrum methodology, data structures, and programming logic. I am always looking to improve my skills and learn new technologies to stay updated in the industry. My goal is to contribute to real-world software projects, work in collaborative teams, and continue growing professionally as a developer.

Experiencia

BANCO ADEMI

Software Developer

enero de 2026 - marzo de 2026 (3 meses)
